

Client Ownership Policy — Opus Leonis LLC (MAKO)

Purpose

To guarantee that clients retain full ownership and control over deliverables produced by Opus Leonis LLC (MAKO Studio).

Policy

- Upon receipt of full payment, the client owns 100% of the deliverables (source code, binaries, assets, documentation).
- Opus Leonis retains no rights, royalties, or claims over client deliverables unless a separate addendum is signed.
- Opus Leonis may retain anonymized operational logs for internal quality and compliance for a limited period, never including client IP or content.

Deliverables & Media

Projects are delivered offline on physical storage (USB/SSD). A temporary backup is retained only until the client confirms delivery, after which Opus Leonis securely wipes the backup.

Open■Source Components

Where open■source dependencies are used, licenses will be documented. The client's ownership of deliverables remains intact subject to those third■party licenses.

Confidentiality

All client materials are treated as confidential. Opus Leonis follows an offline■first architecture to minimize data exposure.
